After attending to a AXELOS Accredited Training Course and passing the Exam, I earned my **ITIL v4 Foundation** Certification.

**Summary:** The ITIL 4 Foundation certification is designed as an introduction to ITIL 4 and enables candidates to look at IT service management through an end-to-end operating model for the creation, delivery and continual improvement of tech-enabled products and services.

## Skills

ITIL 4 Foundation candidates will have an understanding of the following:

- A holistic approach to the facilitation of co-creation of value with customers and other stakeholders in the form of products and services
- The guiding principles of ITIL 4
- The four dimensions of Service Management
- Key concepts from Lean, Agile, DevOps, and why these are important to deliver business value
- How ITIL practices described in ITIL 4 will maintain the value and importance provided by the current ITIL processes, whilst at the same time expand to be integrated to different areas of service management and IT, from demand to value.
