

# Microsoft Certified: Azure Fundamentals

**Date:** 2022-07-04  
**modified:** 2022-07-14  
**tags:** Microsoft, Azure, Certification, Exam  
**description:** AZ-900 Exam passed, Azure Fundamentals Certification received  
**category:** Certification  
**slug:** microsoft-certified-azure-fundamentals  
**Author:** Dominik Wombacher  
**lang:** en  
**transid:** microsoft-certified-azure-fundamentals  
**Status:** published

I started my Public Cloud / Hyperscaler Journey with Azure, first stop: AZ-900 Exam, passed and Certification received. Up next: AZ-104 - Microsoft Azure Administrator. AWS will follow in near future, I also plan run some Side Projects on Azure and AWS.

**Update** There are a lot of great and mostly even free resources out there to prepare for the AZ-900, my favorites:

- [Microsoft Learning, AZ-900 Exam Overview](#), Scroll down to "*Items in this collection*" to access the related learning paths.
- [John Savill's Technical Training, AZ-900 Certification Course](#)

And if your Employer is part of the [Microsoft Enterprise Skills Initiative](#), use the offered Practice Exams as final step before taking the exam.

**Summary:** Earners of the Azure Fundamentals certification have demonstrated foundational level knowledge of cloud services and how those services are provided with Microsoft Azure.
