description: Fix "no package metadata was found" error when starting vorta
category: Linux
slug: opensuse_tumbleweed_python_3-10_no_package_metadata_was_found_for_vorta
Author: Dominik Wombacher
lang: en
transid: opensuse_tumbleweed_python_3-10_no_package_metadata_was_found_for_vorta
Status: published

I'm using [Vorta](#), a Desktop Client for [BorgBackup](#), on my Notebook with openSUSE Tumbleweed, which stopped working after upgrading Tumbleweed to a Version that started using Python 3.10 as default.

Error message when starting vorta from the command line:

```
vorta

Traceback (most recent call last):
  File "/usr/bin/vorta", line 33, in <module>
    sys.exit(load_entry_point('vorta==0.8.2', 'gui_scripts', 'vorta')())
  File "/usr/bin/vorta", line 22, in importlib_load_entry_point
    for entry_point in distribution(dist_name).entry_points
  File "/usr/lib64/python3.10/importlib/metadata/__init__.py", line 957, in distribution
    return Distribution.from_name(distribution_name)
  File "/usr/lib64/python3.10/importlib/metadata/__init__.py", line 548, in from_name
    raise PackageNotFoundError(name)
importlib.metadata.PackageNotFoundError: No package metadata was found for vorta
```

I use the openSUSE Tumbleweed build from <https://copr.fedorainfracloud.org/coprs/luminoso/vorta/>, first tried to update it, but that dropped a dependency error:

```
sudo zypper up vorta

Loading repository data...
Reading installed packages...
Resolving package dependencies...

Problem: nothing provides 'python3-secretstorage' needed by the to be installed vorta-0.8.7-2.suse.tw.x86_64
Solution 1: do not install vorta-0.8.7-2.suse.tw.x86_64
Solution 2: break vorta-0.8.7-2.suse.tw.x86_64 by ignoring some of its dependencies
```

Well, sure that there is no secretstorage package for python installed? Let's see:

```
sudo zypper se secretstorage

Loading repository data...
Reading installed packages...

S | Name | Summary | Type
-----+-----+-----+-----
i | python38-SecretStorage | Python bindings to FreeDesktoporg Secret Service API | package
i | python39-SecretStorage | Python bindings to FreeDesktoporg Secret Service API | package
i | python310-SecretStorage | Python bindings to FreeDesktoporg Secret Service API | package
```
